Explore
other
outcomes

Health Care
Provider

Applicant

Our median reduction
in turnover across all
clients

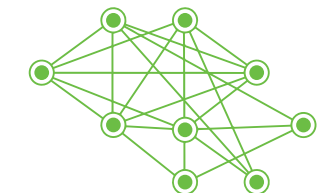

Our clients process
over **4m+**
applications annually

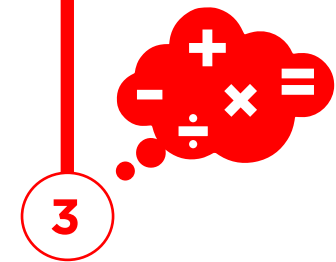

We guarantee
at least **10%**
improvement

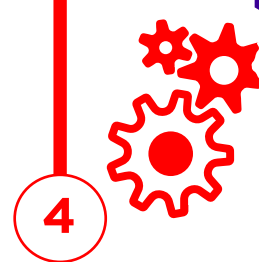

Did you know that the things that
make someone a good match for
the operating room can make
them a poor match for the
emergency room?

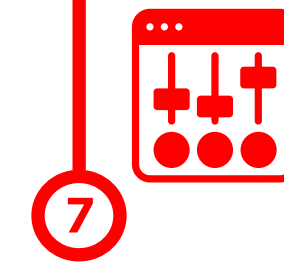

Our platform includes
data from **400+**
facilities

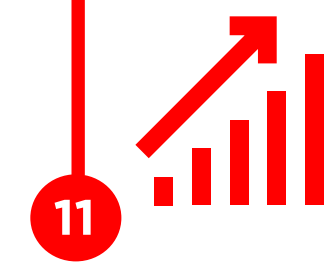

Build models using
data from your
historical employee
retention and similar
organizations

Integrate Arena platform
with your Applicant
Tracking System (ATS)

Combine relevant
data and generate a
retention prediction
for each applicant

Machine learning
and fresh retention
data improve
accuracy over time

Measure employee
retention and report
improvements
